Ironwar0000@seoultech.ac.kr
Seoul National University of
Science and Technology/
Northumbria University

Interested in

Robotics perception & Ironmen
Human body regeneration
Neural Link

Comparative Languages
Timeseries, Complex variable &
Topology

Turing machine & Category Theory

Exploration Activity

- February, 2024 to Present
President of From Adam
Smith to Milton Friedman
- March, 2017 to Present
President of Card Throwing
Club
- March, 2024
Gas Chromatography
Education

Languages

- English IELTS 6.5
- Korean Native
- Chinese HSK4

Skills

- As Front End dApp
Developer, Flask React
Node.js Three.js
- As Back End Developer,
SQLite3 ETL
- Through Excel BVA/Rocket
Launcher/Physics Software
- Through GDB Reverse
Engineering & Pint
Operating System Kernel

Certificate

- Spacecraft Dynamics and
control from University of
Colorado Boulder
- Robotics, Northwestern
univ
- Analytical Combinatorics,
from Princeton
- Nano Transport from
Postech
- Causal Inference , from
UPenn
- Computer Systems, from
Princeton

Work Experience

FBAQuant

September, 2024 to Present

- Research and Development on Markov Decision Process
- Capstone project on Stochastic deep hedge

MINTLab

July, 2024 to Present

Research and Development on RL, Robotics perception, Image
segmentation

World Quant Brain Consultant

April, 2024 to Present

- Research and Development on Alpha Automation
- 2024 IQC Stage1 Top 20%

Seoul Festival Facilitator

April, 2024 to August, 2024

- Facilitate Group discussion to solve problem on companies and
Industries

Republic of Korea Marine Corps Staff Sergeant

July, 2021 to July, 2023

- As a G-2, Intelligence Production
- As a Aviation, Helicopter Crew Chief
- Do a Translating document & meetings

Education

LG Group Aimer 5 期, 5th

July, 2024 to September, 2024 Artificial Intelligence Education

Seoul National University DYROS lab July, 2024 Robotics Bootcamp1, ROS and
Linux

Seoul National University of Science and Technology & Northumbria University

Mar, 2021 to Present

Bachelor degree in Information Technology and Management

Awards

- Seoul Tech-NVIDIA Winter Bootcamp 5th January, 2024
- Seoul Tech FinTech Business Idea Contest 5th September, 2023
- Business contest utilizing Military Technology with the Drone-
Emergency- Rescue Solution 1st June, 2023
- Korea Startup Smart Copy Construction Assistant Software 23rd
March, 2022 – October, 2022
- ROKMC Business Contest 2022 Metaverse Transaction Platform 2nd
February, 2022 – March, 2022

Extracurricular Activity

Technical Activity

- Memory Recall device and perception and aging based on Research <
Ageing as a mindset: A study protocol to rejuvenate older adults with a
counterclockwise psychological intervention> June, 2024 to Present
- Game theory on International relations with Isometric Embedding
Application June, 2024 to Present
- Combining FPGA in Reinforce Learning with Mario Brothers April 2024 to
Present

- Cryptography from Stanford
- Matrix Algebra for Engineers March, 2024 From The Hong Kong University of Science and Technology
- Fundamentals of CNNs and RNNs April, 2024 From Sungkyunkwan University
- Fundamentals of Red Hat Enterprise Linux April, 2024
- Database Operations in MariaDB Using python From Infosys January, 2024
- NVIDIA DLI Building a transformer based natural language processing application December, 2023 From NVIDIA
- 2nd class Drone Engineer January, 2024 From Korea Drone Association

- Functional Programming with Java script and computer vision study March 2024 to Present
- Study on Using coq on Zero Knowledge Proof March 2024 to Present
- Geometric Understanding on Data Science and Problem Solving Algorithm September 2023 to Present
- Research on Determine adjacent node's shape in arbitrary condition of given CNN March 2024 to Present

Projects

Technical Projects

- Generalized SQL Rewriter system with Monte Carlo Tree Search System May, 2024
- 3 Major Investment Bank Analysis based on Financial Report, 2024
- Prediction on CPI Index with XG Boost January, 2024
- Research on Correlation of S&P and Other Currencies December, 2023
- Memory Recall Process with opensource and AR Device, 2022 to Present
- Summer Design Thinking Program in National University of Singapore May, 2021

Engineering Projects

- Weapon Merchant Website using Flask and Sqlite3 May, 2024
- Philadelphia Experiment Myth and Facts January, 2017-December, 2017
- Rocket-Propelled Grenade Prototype March, 2015
- How Drone will affects to future warfare Research May, 2014- July, 2014

Research Projects

- Robotics Perception and Human Perception November, 2022 - Present
- Brain sound Effect March, 2017-November, 2022
- Micro social Relationship behavior and social status May, 2016 - November, 2018
- The minimum component of Nation, Can we build our own nation? Research June, 2015-March, 2016
- Micro social Relationship behavior and social status May, 2015 - November, 2018

Extra Projects

- Big History of South Korea video March, 2015-April, 2015
